NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Galway; and purpose giving similar Tables from time to time for each of the remaining Counties of the Province of Connaught, at such intervals as the progress of the work will permit.

CENSUS OF IRELAND, 1901.

COUNTY OF GALWAY.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Galway from the Census Returns of 1901.

SUMMARY.

Area.

The (Administrative) County of Galway covers an area of 1,519,699 statute acres, or 7·3 per cent. of the total area of the country.

Population. (Table ii.)

The number of persons in the County of Galway according to the Census was—in 1881, 238,078; in 1891, 211,227; and according to the recent Census, 192,549 (97,923 Males and 94,626 Females), or 8·8 per cent. less than in 1891.

Families and Houses. (Table viii.)

The number of distinct Families in the County at the time of the late enumeration was 36,762, the average number of persons in a family being thus 5·1; and the number of Inhabited Houses was 36,219, showing an average of 5·2 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

Occupiers of less than 5 rooms. (Tables ix. & x.)

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 31,984, or 87·0 per cent. of the total number of Families in the County, and of these 6 were occupiers of part of a room only; 2,806, or 7·6 per cent. of the total number of Families in the County, were occupiers of one room; 10,903, or 29·7 per cent., occupiers of two rooms; 14,814, or 40·3 per cent., occupiers of three rooms; and 3,455, or 9·4 per cent., occupiers of four rooms.

The number of Tenements of One Room in the County was 2,809, comprising 840 cases in which the room had only one occupant; 1,260 where the room had 2, 3, or 4 occupants; 512 cases in which there were 5, 6, or 7 occupants; and 197 cases where the occupants exceeded 7 in number, including 25 cases of 10 persons, 13 of 11 persons, and 4 of 12 or more persons in the room.

Co. Districts (Table vi.)

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901; and the increase or decrease during the decade:—

County Districts.	Population.		Increase or Decrease between 1891 and 1901.		
	1891.	1901.	Increase.	Decrease.	Rate per cent.
Ballinasloe Urban,	4,642	4,904	262	.	5·3
Galway Urban,	13,800	13,426	.	374	2·7
Ballinasloe No. 1 Rural,	11,921	10,694	.	1,227	10·3
Clifden Rural,	20,589	18,708	.	1,881	8·8
Galway Rural,	24,915	23,039	.	1,876	7·5
Glennamaddy Rural,	18,486	16,577	.	1,909	10·3
Gort Rural,	14,301	12,386	.	1,915	13·5
Loughrea Rural,	22,244	20,126	.	2,118	9·5
Mountbellew Rural,	16,476	15,010	.	1,467	8·8
Oughterard Rural,	18,979	17,732	.	1,247	6·6
Portumna Rural,	10,363	9,054	.	1,309	12·6
Tuam Rural,	34,631	30,924	.	3,707	10·7
Total,	211,227	192,549	.	18,678	8·8

From the foregoing Statement it will be observed that there was an increase of 262 persons in Ballinasloe Urban, and a decrease in each of the other County Districts. The highest percentage of decrease took place in Gort Rural and Portumna Rural, viz., 13·5 and 12·6 respectively; and the lowest in Galway Urban and Oughterard Rural, viz., 2·7 and 6·6 respectively.

Birthplaces of the Inhabitants. (Table xxv.)

Of the persons enumerated in the County in 1901, 93·3 per cent. were born therein; 2·2 per cent. in other Counties of the Province of Connaught; 1·5 per cent. in Leinster; 1·4 per cent. in Munster; 0·5 per cent. in Ulster; 0·7 per cent. in Great Britain; 0·4 per cent. were born abroad; and 2 persons were born at sea.

Towns having, in 1901, a population of 2,000 and upwards, are classified as Civic Areas.

Civic Areas.

The County contains four such Areas, viz., Ballinasloe, Galway, Loughrea, and Tuam. In 1891 the population of these Areas amounted to 24,269; in 1901 it was 23,783, showing a decrease of 486 persons, or 2·0 per cent.; in the rural portions of the County the decrease was 9·7 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Galway in 1901:—

Religious Professions. (Table xxix.)

Religious Professions.	1901.	
	Number of Persons.	Per-centage of Total Population.
Roman Catholics,	187,220	97·2
Protestant Episcopalians,	4,402	2·3
Presbyterians,	616	0·3
Methodists,	183	0·1
All other Denominations (and Religion unascertained),	121	0·1
Information refused,	2	0·0
Total,	192,543	100·0

From the above Table it will be seen that, of the total population of the County in 1901, 97·2 per cent. were Roman Catholics, 2·3 per cent. Protestant Episcopalians, 0·3 per cent. Presbyterians, 0·1 per cent. Methodists, and 0·1 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 97·0 per cent.; Protestant Episcopalians, 2·5 per cent.; Presbyterians, 0·3 per cent.; Methodists, 0·1 per cent.; and members of all other Denominations, 0·1 per cent. of the population of the County as then constituted.

Education. (Tables xxx. and xxxiii.)

The following Statement shows the Educational status of the Inhabitants of the County of Galway in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education.	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write,	50·7	61·3
Read only,	8·5	5·6
Illiterate,	40·8	33·1
Total,	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1891, only 50·7 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 61·3 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 8·5, and in 1901, 5·6; and that the per-centage of the "illiterate" fell from 40·8 in 1891 to 33·1 in 1901.

In 1891 33·9 per cent. of the inhabitants aged five years and upwards were illiterate (32·3 per cent. of the males, and 35·6 of the females); in 1901 the per-centage was but 25·4 (24·7 of the males, and 26·1 of the females).

Religious Professions and Education. (Table xxxiii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 26·0 per cent. of Roman Catholics, 3·3 per cent. of Protestant Episcopalians, 1·6 per cent. of Presbyterians, 1·2 per cent. of Methodists, and 12·2 per cent. of "all other Denominations" were Illiterate.

School Attendance. (Table xxxviii.)

The number of children attending school in the County of Galway, according to the Census of 1891 (week ending 30th May), was 30,603, or 38·0 per cent. of persons aged 5 years and under 20 in the County as then constituted; in 1901 the number returned (for week ending 11th May), was 28,678, or 43·1 per cent. of the persons aged 5 and under 20.

The Sick. (Table xii.)

In 1891 the number of persons in the County of Galway (as then constituted) returned as Sick, on the night of the Census, was 1,324, or one in every 162 of the population; in 1901 the number so returned was 1,305, or one in every 148 of the population; of the latter number 708 were at their own homes, and 597 were in hospital.

Pauperism. (Table xii).

The number of persons returned in 1891 as receiving relief under the Poor Law System was 4,131, or one in every 52 of the population; of this number 1,627 were inmates of Workhouses, and 2,504 were in receipt of outdoor relief; in 1901 the number returned was 3,853, or one in every 50 of the population, 1,480 of these being in the Workhouses, and 2,373 on outdoor relief.

Marriages, Births, and Deaths. (Table xiv.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the returns of the Registrar-General, the number of marriages registered in the County of Galway during the ten years ending 31st March, 1901, was 6,722, equal to an average annual rate of 3·3 per 1,000 of the population. The number registered in the whole of Ireland during the same period, affords an average annual rate of 4·8 per 1,000.

The number of Births registered in the County during the ten years was 44,912, affording an average annual rate of 22·2 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 30,779, being equal to an average annual rate of 15·2 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration. (Table xii.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Galway, amounted to 36,820 (15,125 males, and 21,695 females); the number for the decade ending 31st March, 1891, was 51,121; for that ending 31st March, 1881, 23,665; for that ending with March, 1871, 38,758; and for that ending with March, 1861, 50,838, making a total of 201,202 for the fifty years.

(*a*) The remainder of Dunmore Town is in the Barony of Dunmore in this D.E.D.; this portion stands on the townland of Gaterstreet, in which its area and valuation are included. The entire town has an estimated area of 51 acres, and contains 639 persons.

(*b*) The remainder of Dunmore Town is in the Barony of Ballymoe in this D.E.D.; this portion stands on the townlands of Abbeyland, North Abbeyland, South, and Dunmore, in which its area and valuation are included. The enumerator in 1891 reported that some houses which properly belonged to the town were included in the townlands of Abbeyland North and South in 1881. See note (*c*).

(*c*) The decrease is attributed to emigration.

(*d*) The increase is attributed to removals into townland.

(a.) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards.
(b) Renmore Military Barracks

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described.—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st. Its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e., their actual state

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class of all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz.:—

First Class accommodation consisting of 1st class houses, occupied by one family.
Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.
Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.
Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st Class houses inhabited by six or more families

*The designation "Primary" has been applied in Irish Census publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Divisions in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Leitrim; and purpose giving similar Tables from time to time, for the other Counties of the Province of Connaught, at such intervals as the progress of the work will permit.

From the above Table it will be seen that, of the total population of the County in 1901, 90·7 per cent. were Roman Catholics, 8·0 per cent. Protestant Episcopalians, 0·3 per cent. Presbyterians, and 1·0 per cent. Methodists. In 1891 Roman Catholics formed 90·5 per cent.; Protestant Episcopalians, 8·2 per cent.; Presbyterians, 0·3 per cent.; and Methodists, 1·0 per cent. of the population of the County as then constituted.

Education. (Tables xxx and xxxiii.)

The following Statement shows the Educational status of the Inhabitants of the County of Leitrim in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education.	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write	63·7	72·3
Read only	11·2	7·1
Illiterate	25·1	20·6
Total	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1891, only 63·7 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 72·3 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 11·2, and in 1901, 7·1: and that the per-centage of the "illiterate" fell from 25·1 in 1891 to 20·6 in 1901.

In 1891 16·4 per cent. of the inhabitants aged five years and upwards were illiterate (16·4 per cent. of the males and 16·5 of the females); in 1901 the per-centage was but 12·1 (12·6 of the males, and 11·6 of the females).

Religious Professions and Education. (Table xxxiii).

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 12·9 per cent. of Roman Catholics, 5·2 per cent. of Protestant Episcopalians, 2·5 per cent. of Presbyterians, 2·1 per cent. of Methodists, and 5·3 per cent of "all other Denominations" were Illiterate.

School Attendance. (Table xxxviii.)

The number of children attending school in the County of Leitrim, according to the Census of 1891 (week ending 30th May), was 13,637; or 45·9 per cent. of persons aged 5 years and under 20 in the County as then constituted, in 1901 the number returned (for week ending 11th May), was 10,625, or 45·5 per cent. of the persons aged 5 and under 20.

The Sick (Table xii.)

In 1891 the number of persons in the County of Leitrim (as then constituted) returned as Sick, on the night of the Census, was 471, or one in every 167 of the population: in 1901 the number so returned was 361, or one in every 192 of the population; of the latter number 222 were at their own homes, and 139 were in hospital.

Pauperism. (Table xiv.)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 1,365, or one in every 57 of the population; of this number 432 were inmates of Workhouses, and 933 were in receipt of outdoor relief; in 1901 the number returned was 1,040, or one in every 67 of the population; 330 of these being in the Workhouses, and 710 on outdoor relief.

Marriages, Births and Deaths. (Table xiv.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the returns of the Registrar-General, the number of marriages registered in the County of Leitrim during the ten years ending 31st March, 1901, was 2,799, equal to an average annual rate of 3·8 per 1,000 of the population. The number registered in the whole of Ireland during the same period, affords an annual average rate of 4·8 per 1,000.

The number of Births registered in the County during the ten years was 15,117, affording an average annual rate of 20·4 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 10,608, being equal to an average annual rate of 14·3 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration. (Table xii.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Leitrim, amounted to 9,830 (4,417 males, and 5,413 females); the number for the decade ending 31st March, 1891, was 21,008; for that ending 31st March, 1881, 12,683; for that ending with March, 1871, 13,980; and for that ending with March, 1661, 16,820, making a total of 74,321 for the fifty years.

(a.) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards of which there are not any in the County of Leitrim.

Note.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, Its extent, as shown by the number of rooms, 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, *i.e.* their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz.:—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st Class houses inhabited by six or more families.

* The designation "Primary" has been applied in Irish Census Publications, since 1841, to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior" upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Divisions in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Mayo.

Information refused,	3	0·0
Total,	199,166	100·0

From the above Table it will be seen that, of the total population of the County in 1901, 97·7 per cent. were Roman Catholics, 1·9 per cent. Protestant Episcopalians, 0·3 per cent. Presbyterians, and 0·1 per cent. Methodists. In 1891 Roman Catholics formed 97·5 per cent.; Protestant Episcopalians, 2·0 per cent.; Presbyterians, 0·3 per cent.; Methodists, 0·1 per cent.; and members of all other Denominations, 0·1 per cent. of the population of the County as then constituted.

Education. (Tables xxx. and xxxiii.)

The following Statement shows the Educational status of the Inhabitants of the County of Mayo in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education.	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write,	50·7	60·9
Read only,	9·8	6·0
Illiterate,	39·5	33·1
Total,	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1891, only 50·7 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 60·9 per cent. could do so: that the percentage of the population who could "read only" in 1891 was 9·8, and in 1901, 6·0; and that the percentage of the "illiterate" fell from 39·5 in 1891 to 33·1 in 1901.

In 1891 32·0 per cent. of the inhabitants aged five years and upwards were illiterate (29·2 per cent. of the males, and 34·8 of the females); in 1901 the percentage was but 25·1 (23·2 of the males, and 26·9 of the females).

(a) Ballinrobe Town stands on the townlands of Ballinrobe Demesne, Carrowmaleeka, Cornaroya, Friarsquarter, West, Knockanotish, Knocklereen, and Rathkelly, to which its area and valuation are included : its estimated area is 113 acres.
(b) This increase in 1891 was attributed to military with some of their families being then included in this townland, the decrease in 1901 is attributed to their withdrawal.
(c) Including the valuation of Inishrobe Island, which now forms part of Cushough Demesne Townland.
(d) The decrease was attributed to deaths and removals.
(e) Including the inmates of Ballinrobe Union Workhouse.
(f) The enumerator reported that the return for 1891 is correct, and that some houses, &c., which properly belonged to Rocksborough, South, were probably included in Rocksborough, North, in 1891.

(a.) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e. their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz.:—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st Class houses inhabited by six or more families.

* The designation "Primary" has been applied in Irish Census Publications since 1841 to schools where the instruction is exclusively English, while those schools in which a foreign language is taught have been classed as "Superior" upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1871, 1881, and 1891) that those of the public who might not require, or be disposed to purchase the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Divisions in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Roscommon.

CENSUS OF IRELAND, 1901.

COUNTY OF ROSCOMMON.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Roscommon from the Census Returns of 1901.

SUMMARY.

Area.

The (Administrative) County of Roscommon covers an area of 629,633 statute acres, or 3·0 per cent. of the total area of the country.

Population. (Table ii.)

The number of persons in the County of Roscommon according to the Census was—in 1881, 135,634: in 1891, 116,552; and according to the recent Census, 101,791 (51,233 Males and 50,558 Females), or 12·7 per cent. less than in 1891.

Families and Houses (Table viii.)

The number of distinct Families in the County at the time of the late enumeration was 21,030, the average number of persons in a family being thus 4·8; and the number of Inhabited Houses was 20,817, showing an average of 4·8 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

Occupiers of less than 5 rooms. (Tables ix. & x.)

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 19,023; or 90·5 per cent. of the total number of families in the County, and of these 8 were occupiers of part of a room only, 1,340 or 6·4 per cent. of the total number of Families in the County were occupiers of one room: 6,852 or 32·6 per cent. occupiers of two rooms; 9,477 or 45·1 per cent. occupiers of three rooms; and 1,346 or 6·4 per cent. occupiers of four rooms.

The number of Tenements of One Room in the County was 1,344, comprising 456 cases in which the room had only one occupant; 684 where the room had 2, 3, or 4 occupants: 161 cases in which there were 5, 6 or 7 occupants; and 43 cases where the occupants exceeded 7 in number, including 8 cases of 10, and 3 of 11 persons in the room.

Co Districts. (Table vi.)

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901; and the decrease during the decade:—

County Districts.	Population		Decrease between 1891 and 1901	
	1891.	1901.	Number.	Rate per cent.
Athlone No. 2 Rural	12 069	10,701	1,368	11·8
Ballinasloe No. 2 Rural	4 176	3 681	495	11·9
Boyle No. 1 Rural	19,317	16,868	2,449	12·7
Carrick-on-Shannon No. 2 Rural	7 494	6 241	1,253	16·7
Castlereagh Rural	37 473	33,576	3,897	10·4
Roscommon Rural	17,562	15 164	2,398	13·7
Strokestown Rural	18 461	15 560	2,901	15·7
Total	116 552	101,791	14,761	12·7

From the foregoing Statement it will be observed that the highest percentage of decrease in the County Districts took place in Carrick-on-Shannon, No. 2 Rural and Strokestown Rural, viz., 16·7 and 15·7 respectively; and the lowest in Castlereagh Rural, Athlone No. 2 Rural, viz., 10·4 and 11·3 respectively.

Birthplaces of the Inhabitants. (Table xxv.)

Of the persons enumerated in the County in 1901, 88·5 per cent. were born therein, 8·5 per cent. in other Counties of the Province of Connaught, 1·4 per cent. in Leinster, 0·4 per cent. in Munster; 0·5 per cent. in Ulster; 0·4 per cent. in Great Britain, and 0·3 per cent. were born abroad.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

Civic Areas.

The County contains one such Area, viz., Boyle. In 1891 the population of this Area amounted to 2,464; in 1901 it was 2,477, showing an increase of 13 persons; in the rural portions of the County the decrease was 12·9 per cent.

Religious Professions. (Table xxix.)

The following Statement shows, according to Religious Professions the Inhabitants of the County of Roscommon in 1901:—

Religious Professions.	1901.	
	Number of Persons.	Percentage of Total Population.
Roman Catholics	99 085	97·3
Protestant Episcopalians	2,273	2·2
Presbyterians	250	0·3
Methodists	100	0·1
All other Denominations (and Religion unascertained)	83	0·1
Total	101,791	100·0

From the above Table it will be seen that of the total population of the County in 1901, 97·3 per cent. were Roman Catholics, 2·2 per cent. Protestant Episcopalians, 0·3 per cent. Presbyterians, 0·1 per cent. Methodists, and 0·1 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 96·4 per cent.; Protestant Episcopalians, 3·1 per cent; Presbyterians, 0·3 per cent; Methodists, 0·1 per cent.; and members of all other Denominations, 0·1 per cent. of the population of the County as then constituted.

Education (Tables xxx and xxxiii.)

The following Statement shows the Educational status of the Inhabitants of the County of Roscommon in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the percentages are based being those for the County as constituted in the respective years:—

DEGREES OF ELEMENTARY EDUCATION	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write,	63·2	72·2
Read only,	10·5	6·3
Illiterate,	26·3	21·5
Total,	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1891, only 63·2 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 72·2 per cent. could do so; that the percentage of the population who could "read only" in 1891 was 10·5, and in 1901, 6·3; and that the percentage of the "illiterate" fell from 26·3 in 1891 to 21·5 in 1901.

In 1891 18·2 per cent. of the inhabitants aged five years and upwards were illiterate (17·6 per cent. of the males and 18·9 of the females); in 1901 the percentage was but 13·4 (13·2 of the males and 13·7 of the females).

Religious Professions and Education. (Table xxxiii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 13·7 per cent. of Roman Catholics, 3·2 per cent. of Protestant Episcopalians, 2·2 per cent. of Presbyterians, 3·2 per cent. of Methodists, and 15·8 per cent. of "all other Denominations" were Illiterate.

School Attendance. (Table xxxviii.)

The number of children attending school in the County of Roscommon, according to the Census of 1891 (week ending 30th May), was 17,951; or 41·6 per cent. of persons aged 5 years and under 20 in the County as then constituted, in 1901 the number returned (for week ending 11th May) was 15,207; or 44·3 per cent. of the persons aged 5 and under 20.

The Sick. (Table xii.)

In 1891 the number of persons in the County of Roscommon (as then constituted) returned as Sick, on the night of the Census, was 569, or one in every 201 of the population: in 1901 the number so returned was 540, or one in every 189 of the population; of the latter number 295 were at their own homes, and 245 were in hospital.

Pauperism (Table xii.)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 2,397, or one in every 48 of the population; of this number 746 were inmates of Workhouses, and 1,651 were in receipt of outdoor relief: in 1901 the number returned was 2,021, or one in every 50 of the population; 689 of these being in the Workhouses, and 1,332 on outdoor relief.

Marriages, Births, and Deaths. (Table xiv.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrars' Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of marriages registered in the County of Roscommon during the ten years ending 31st March, 1901, was 3,976, equal to an average annual rate of 3·6 per 1,000 of the population. The number registered in the whole of Ireland during the same period, affords an average annual rate of 4·8 per 1,000.

The number of Births registered in the County during the ten years was 21,195, affording an average annual rate of 19·4 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 15,452, being equal to an average annual rate of 14·2 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration. (Table xii.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Roscommon, amounted to 16,332 (7,106 males and 9,226 females); the number for the decade ending 31st March, 1891, was 23,128; for that ending 31st March, 1881, 13,790; for that ending with March, 1871, 21,393; and for that ending with March, 1861, 27,756, making a total of 102,399 for the fifty years.

(a.) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, Its extent, as shown by the number of rooms: 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, i.e., their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class of all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz.:—

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st Class houses inhabited by six or more families.

† Exclusive of 6 persons who were born at sea.
‡ The apparent increase in the percentage of persons born in other Counties in Connaught, is mainly owing to the transfer of the District Electoral Divisions of Rosmoylan from the County of Galway, and of Ballaghaderreen and Edmondstown from the County of Mayo to the Administrative County of Roscommon, under the Local Government (Ireland) Act, 1898. *The designation "Primary" has been applied in Irish Census Publications since 1841 to schools where the instruction is exclusively English; while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appears to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, present the following Tables for the County of Sligo.

CENSUS OF IRELAND, 1901.

COUNTY OF SLIGO.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give the following Summary of the results obtained respecting the (Administrative) County of Sligo from the Census Returns of 1901.

SUMMARY.

Area.

The (Administrative) County of Sligo covers an area of 452,356 statute acres, or 2·2 per cent. of the total area of the country.

Population. (Table ii.)

The number of persons in the County of Sligo according to the Census was—in 1881, 107,479; in 1891, 94,416; and according to the recent Census, 84,083 (41,849 Males and 42,234 Females), or 10·9 per cent. less than in 1891.

Families and Houses. (Table viii.)

The number of distinct Families in the County at the time of the late enumeration was 17,167, the average number of persons in a family being thus 4·8; and the number of Inhabited Houses was 17,049, showing an average of 4·8 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

Occupiers of less than 5 rooms. (Tables ix.&x.

The number of Occupiers (or Heads of Families) in occupation of less than five rooms in 1901 was 15,023, or 87·5 per cent. of the total number of Families in the County, and of these 4 were occupiers of part of a room only; 1,525, or 8·9 per cent., of the total number of Families in the County, were occupiers of one room; 5,836, or 34·0 per cent., occupiers of two rooms; 6,371, or 37·1 per cent., occupiers of three rooms; and 1,287, or 7·5 per cent., occupiers of four rooms.

The number of Tenements of One Room in the County was 1,527, comprising 454 cases in which the room had only one occupant; 802 where the room had 2, 3, or 4 occupants; 215 cases in which there were 5, 6, or 7 occupants; and 56 cases where the occupants exceeded 7 in number, including 8 cases of 10 persons, 2 of 11 persons, and 1 of 12 or more persons in the room.

Co. Districts (Table vi.)

The following Statement shows, by County Districts, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901: and the increase or decrease during the decade:—

County Districts.	Population.		Increase or Decrease between 1891 and 1901		
	1891.	1901	Increase.	Decrease.	Rate per cent.
Sligo Urban. . . .	10,274	10,870	596	.	5·8
Boyle No. 2 Rural, . .	16,033	13,757	.	2,276	14·2
Dromore West Rural . .	15,019	13,034	.	1,985	13·2
Sligo Rural . . .	30,880	27,218	.	3,662	11·9
Tobercurry Rural . .	22,210	19,204	.	3,006	13·5
Total. .	94,416	84,083	.	10,333	10·9

From the foregoing Statement it will be observed that there was an increase of 596 persons in Sligo Urban, and a decrease in each of the other County Districts. The highest percentage of decrease took place in Boyle No. 2 Rural, viz., 14·2; and the lowest in Sligo Rural, viz., 11·9.

Birthplaces of the Inhabitants. (Table xxv.

Of the persons enumerated in the County in 1901, 94·2 per cent. were born therein; 3·3 per cent. in other Counties of the Province of Connaught; 0·5 per cent. in Leinster; 0·3 per cent. in Munster; 0·7 per cent. in Ulster; 0·7 per cent. in Great Britain; and 0·3 per cent. were born abroad.

Civic Areas.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

The County contains one such Area, viz., Sligo. In 1891 the population of this Area amounted to 10,274; in 1901 it was 10,870, showing an increase of 596 persons or 5·8 per cent.; in the rural portions of the County the decrease was 13·0 per cent.

The following Statement shows, according to Religious Professions, the Inhabitants of the County of Sligo in 1901:—

Religious Professions. (Table xxix.)

Religious Professions	1901	
	Number of Persons.	Percentage of Total Population.
Roman Catholics, ...	76,146	90·6
Protestant Episcopalians.	6,415	7·6
Presbyterians.	662	0·8
Methodists.	518	0·6
All other Denominations (and Religion unascertained),	331	0·4
Information refused.	11	0·0
Total.	84,083	100·0

From the above Table it will be seen that, of the total population of the County in 1901, 90·6 per cent. were Roman Catholics, 7·6 per cent. Protestant Episcopalians, 0·8 per cent. Presbyterians, 0·6 per cent. Methodists, and 0·4 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 90·8 per cent.; Protestant Episcopalians, 7·5 per cent. Presbyterians, 0·7 per cent.; Methodists, 0·6 per cent.; and members of all other Denominations, 0·4 per cent. of the population of the County as then constituted.

Education. (Tables xxx and xxxiii.)

The following Statement shows the Educational status of the Inhabitants of the County of Sligo in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the County as constituted in the respective years:—

Degrees of Elementary Education.	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write,	60·3	69·6
Read only,	9·6	6·5
Illiterate,	30·1	23·9
Total,	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1891, only 60·3 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 69·6 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 9·8, and in 1901, 6·5; and that the per-centage of the "illiterate" fell from 30·1 in 1891 to 23·9 in 1901.

In 1891 22·4 per cent. of the inhabitants aged five years and upwards were illiterate (22·0 per cent. of the males and 22·8 of the females); in 1901 the per-centage was but 16·0 (16·2 of the males, and 15·7 of the females).

Religious Professions and Education. (Table xxxiii).

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 17·3 per cent. of Roman Catholics, 3·9 per cent. of Protestant Episcopalians, 2·1 per cent. of Presbyterians, 1·0 per rent. of Methodists, and 1·9 per cent of "all other Denominations" were Illiterate.

School Attendance. (Table xxxviii.)

The number of children attending school in the County of Sligo, according to the Census of 1891 (week ending 30th May), was 15,365; or 41·3 per cent. of persons aged 5 years and under 20 in the County as then constituted, in 1901 the number returned (for week ending 11th May), was 11,592, or 41·7 per cent. of the persons aged 5 and under 20.

The Sick. (Table xii.)

In 1891 the number of persons in the County of Sligo (as then constituted) returned as Sick, on the night of the Census, was 600, or one in every 163 of the population: in 1901 the number so returned was 641, or one in every 131 of the population; of the latter number 361 were at their own homes, and 280 were in hospital.

Pauperism. (Table xii).

The number of persons returned in 1891 as receiving relief under the Poor Law System was 1,734, or one in every 56 of the population; of this number 446 were inmates of Workhouses, and 1,288 were in receipt of outdoor relief; in 1901 the number returned was 1,672, or one in every 50 of the population; 558 of these being in the Workhouses, and 1,114 on outdoor relief.

Marriages, Births and Deaths. (Table xiv.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrar's Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the returns of the Registrar-General, the number of marriages registered in the County of Sligo during the ten years ending 31st March, 1901, was 3,238, equal to an average annual rate of 3·6 per 1,000 of the population. The number registered in the whole of Ireland during the same period, affords an annual average rate of 4·8 per 1,000.

The number of Births registered in the County during the ten years was 18,074, affording an average annual rate of 20·3 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 13,002, being equal to an average annual rate of 14·6 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration. (Table xii.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the County of Sligo, amounted to 14,065 (6,057 males, and 8,008 females); the number for the decade ending 31st March, 1891, was 23,594; for that ending 31st March, 1881, 11,708; for that ending with March, 1871, 12,049; and for that ending with March, 1861, 13,328, making a total of 74,744 for the fifty years.

(a.) The Civic Areas comprise all Municipal Boroughs, Urban Districts, and Towns of 2,000 inhabitants and upwards.

NOTE.—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—

1st, Its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows, and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all the elements, *i.e.*, their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows; in the second, what might be considered a good farm house, having from five to nine rooms and windows; and in the first class of all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz. —

First Class accommodation consisting of 1st class houses, occupied by one family.

Second Class accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.

Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.

Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st Class houses inhabited by six or more families.

* The designation "Primary" has been applied in Irish Census Publications since 1841 to schools where the instruction is exclusively English: while those schools in which a foreign language is taught have been classed as "Superior," upon the assumed likelihood that the presence of a foreign language in the school course argues a higher standard of general instruction than is to be found where such an element is wanting.

NOTE.

It has been considered desirable (as in 1881 and 1891) that those of the public who might not require, or be disposed to purchase, the Census Abstracts and Reports in their completeness, should have access at a small cost to the statistics of the Territorial Division in which they may have a more immediate interest; and as, in Ireland, the County appeared to be the most convenient and familiar area for which the principal particulars should be afforded in abstract, the Census Commissioners, with the approval of His Excellency the Lord Lieutenant, have published Tables for the several Counties in the Province of Connaught, and now present Summary Tables for that Province, and a Synopsis of the results given in the Summaries prefixed to the County Books. Similar information has been published for the Provinces of Leinster and Munster, and the corresponding Tables for the Province of Ulster will shortly be completed.

It has not been considered necessary to compile Provincial Summaries of Tables VII., XVII., XXI., XXII., and XXXII.

CENSUS OF IRELAND, 1901.

PROVINCE OF CONNAUGHT.

In addition to the information contained in the County Tables, it has been deemed advisable to adopt the course pursued in 1881 and 1891, and give summaries of the results obtained respecting the several Counties in Connaught from the Census Returns of 1901; similar information is here given for the Province, together with a synopsis of the County summaries.

SUMMARY.

Area.

The Province of Connaught covers an area of 4,374,460 statute acres, or 21·0 per cent. of the total area of the country.

Population. (Table ii.)

The number of persons in the Province of Connaught according to the Census was—in 1881, 815,906; in 1891, 719,511; and according to the recent Census, 646,932 (323,667 Males and 323,265 Females), or 10·1 per cent. less than in 1891.

Families and Houses. (Table viii.)

The number of distinct Families in the Province at the time of the late enumeration was 127,465, the average number of persons in a family being thus 5·0; and the number of Inhabited Houses was 126,227, showing an average of 5·1 persons to each house. In calculating these averages, the Special Inmates of Public Institutions have been omitted.

Occupiers of less than 5 rooms. (Tables ix. & xi.)

The number of Occupiers (or heads of Families) in occupation of less than five rooms in 1901 was 114,077, or 89·5 per cent. of the total number of families in the Province, and of these 24 were occupiers of part of a room only, 10,392 or 8·2 per cent. of the total number of Families in the Province were occupiers of one room, 47,543 or 37·3 per cent. occupiers of two rooms; 47,091 or 36·9 per cent. occupiers of three rooms; and 9,027 or 7·1 per cent occupiers of four rooms.

The number of Tenements of One Room in the Province was 10,404, comprising 2,831 cases in which the room had only one occupant; 5,174 where the room had 2, 3, or 4 occupants; 1,813 cases in which there were 5, 6, or 7 occupants; and 586 cases where the occupants exceeded 7 in number, including 91 cases of 10 persons, 34 of 11 persons, and 8 of 12 or more persons in the room.

Counties. (Table vi.)

The following Statement shows, by Counties, as constituted under the Local Government (Ireland) Act, 1898, the number of persons in 1891 and 1901; and the decrease during the decade :—

Counties.	Population.		Decrease between 1891 and 1901.	
	1891.	1901.	Number.	Rate per cent.
Galway County,	211,227	192,549	18,678	8·8
Leitrim County,	78,518	69,413	9,105	11·6
Mayo County,	218,428	199,166	19,262	8·8
Roscommon County,	116,532	101,781	14,751	12·7
Sligo County,	94,806	84,023	10,783	10·9
Total,	719,511	646,932	72,579	10·1

From the foregoing Statement it will be observed that the highest per-centage of decrease in the Counties took place in Roscommon, viz., 12·7; and the lowest in Galway, viz., 8·8.

Birthplace of the Inhabitants. (Table xxv.)

Of the persons enumerated in the Province in 1901, 96·71 per cent. were born therein; 1·08 per cent. in Leinster; 0·87 per cent. in Munster; 0·86 per cent. in Ulster; 0·59 per cent. in Great Britain; 0·29 per cent. were born abroad; and 2 persons were born at sea.

Civic Areas.

Towns having, in 1901, a population of 2,000 and upwards are classified as Civic Areas.

The Province contains nine such Areas. In 1891 the population of these Areas amounted to 49,481; in 1901 it was 49,112, showing a decrease of 369 persons, or 0·7 per cent.; in the rural portions of the Province the decrease was 10·8 per cent.

Religious Professions. (Table xxiv.)

The following Statement shows, according to Religious Professions, the Inhabitants of the Province of Connaught in 1901 :—

Religious Professions.	1901.	
	Number of Persons.	Per-centage of Total Population.
Roman Catholics,	619,215	95·8
Protestant Episcopalians,	22,430	3·5
Presbyterians,	2,537	0·4
Methodists,	1,683	0·2
All other Denominations and Religion unascertained,	649	0·1
Information refused,	21	0·0
Total,	646,932	100·0

From the above Table it will be seen that of the total population of the Province in 1901, 95·8 per cent. were Roman Catholics, 3·5 per cent. Protestant Episcopalians, 0·4 per cent. Presbyterians, 0·2 per cent. Methodists, and 0·1 per cent. members of other Religious Denominations. In 1891 Roman Catholics formed 95·5 per cent.; Protestant Episcopalians, 3·7 per cent.; Presbyterians, 0·4 per cent.; Methodists, 0·3 per cent.; and members of all other Denominations, 0·1 per cent. of the population of the Province as then constituted.

Education. (Tables xxx. and xxxiii.)

The following Statement shows the Educational status of the Inhabitants of the Province of Connaught in 1891 and 1901, in so far as relates to the degrees of elementary education relative to which inquiry was made on the Census Forms, the numbers on which the per-centages are based being those for the Province as constituted in the respective years :—

Degrees of Elementary Education.	Rate per cent. of Total Population.	
	1891.	1901.
Read and Write.	55·4	65·2
Read only,	9·7	6·1
Illiterate,	34·9	28·7
Total,	100·0	100·0

From the above it will be seen that whereas, according to the Returns of 1891, only 55·4 per cent. of the Inhabitants, at all ages, could "read and write," in 1901, 65·2 per cent. could do so; that the per-centage of the population who could "read only" in 1891 was 9·7, and in 1901, 6·1; and that the per-centage of the "illiterate" fell from 34·9 in 1891 to 28·7 in 1901.

In 1891 27·4 per cent. of the inhabitants aged five years and upwards were illiterate (25·9 per cent. of the males and 28·9 of the females); in 1901 the per-centage was but 20·7 (20·0 of the males and 21·5 of the females).

Religious Professions and Education (Table xxxvii.)

Taking Religious Professions and Education in combination, it appears that in 1901, excluding children under five years of age, 21·5 per cent. of Roman Catholics, 4·1 per cent. of Protestant Episcopalians, 2·5 per cent. of Presbyterians, 1·8 per cent. of Methodists, and 5·8 per cent. of "all other Denominations" were Illiterate.

School Attendance. (Table xxxviii.)

The number of children attending school in the Province of Connaught, according to the Census of 1891 (week ending 30th May), was 109,276, or 39·3 per cent. of persons aged 5 years and under 20 in the Province as then constituted; in 1901 the number returned (for week ending 11th May), was 92,263, or 41·4 per cent. of the persons aged 5 and under 20.

The Sick. (Table xii.)

In 1891 the number of persons in the Province of Connaught (as then constituted) returned as Sick, on the night of the Census, was 4,293, or one in every 163 of the population; in 1901 the number so returned was 3,827, or one in every 169 of the population; of the latter number 2,199 were at their own homes, and 1,628 were in hospital.

Pauperism. (Table xii.)

The number of persons returned in 1891 as receiving relief under the Poor Law System was 13,390, or one in every 54 of the population; of this number 4,303 were inmates of Workhouses, and 9,087 were in receipt of outdoor relief; in 1901 the number returned was 11,837, or one in every 55 of the population; 3,963 of these being in the Workhouses, and 7,874 on outdoor relief.

Marriages, Births, and Deaths. (Table xiv.)

For the purposes of Registration of Births, Deaths, and Marriages, the Poor Law Union forms a "Superintendent Registrar's District." Each Union or Superintendent Registrar's District is divided into Dispensary Districts for the Medical Relief of the Poor under the Medical Charities Act; which Districts, save in a few instances, are identical with the Registrars' Districts. Each Dispensary District is composed of a certain number of District Electoral Divisions.

According to the Returns of the Registrar-General, the number of marriages registered in the Province of Connaught during the ten years ending 31st March, 1901, was 23,902, equal to an average annual rate of 3·5 per 1,000 of the population. The number registered in the whole of Ireland during the same period affords an average annual rate of 4·8 per 1,000.

The number of Births registered in the Province during the ten years was 146,514, affording an average annual rate of 21·4 per 1,000 of the population, the average yearly rate for the whole of Ireland during the same period being 23·0 per 1,000.

The Deaths registered during the decennium amounted to 98,936, being equal to an average annual rate of 14·5 per 1,000; the corresponding rate for the whole of Ireland was 18·2 per 1,000.

Emigration. (Table xli.)

The number of Emigrants during the ten years ending 31st March, 1901, who stated that they were from the Province of Connaught, amounted to 117,750 (47,887 males and 69,863 females), the number for the decade ending 31st March, 1891, was 161,219; for that ending 31st March, 1881, 86,551; for that ending with March, 1871, 113,676; and for that ending with March, 1861, 138,059, making a total of 617,255 for the fifty years.

NOTE—The plan of classification in the foregoing Table is the same as that adopted in former Censuses, and may be thus described:—

The value or condition of a house, as to its quality, may be considered to depend mainly on—
1st, its extent, as shown by the number of rooms; 2nd, its quality, as shown by the number of its windows; and 3rd, its solidity or durability, as shown by the material of its walls and roof. If numbers be adopted to express the position of every house in a scale of each of these elements, and if the numbers thus obtained for every house be added together, a new series of numbers will be produced, giving the position of each house in a scale compounded of all elements, *i.e.*, their actual state.

Four classes have been adopted, and the result is, that in the lowest of the four classes are comprised houses principally built of mud or other perishable material, having only one room and window; in the third a better description of house, varying from one to four rooms and windows, in the second what might be considered a good farm house, having from five to nine rooms and windows; and in the first class all houses of a better description than the preceding.

The accommodation which the houses afford has also been arranged under four classes, viz.:—
First Class accommodation consisting of 1st class houses, occupied by one family.
Second Class Accommodation consisting of 2nd class houses, occupied by one family, or of 1st class houses, occupied by two or three families.
Third Class accommodation comprising 3rd class houses, with one family each, or second class houses, with two or three families, or 1st class houses occupied by four or five families.
Fourth Class accommodation includes all 4th class houses, 3rd class houses with more than one family, 2nd class houses with four or more families, and 1st class houses inhabited by six or more families.
